

Pupil Survey September 2024 Hands-up

Please find numbers and % of pupils answering the questions below. % are calculated from the number of children answering each question. Some children did not answer either way which is why totals vary from question to question.

Responses are very positive on the whole. Class teachers informed the Head teacher about any concerning responses and these were investigated and addressed.

The PSHE curriculum has been reviewed in response to the British Values and Protected Characteristics answers from pupils.

The discussion questions will be considered and responded to where possible.
